## » TESTIMONIALS

"Working with Alex was a pleasure. He quickly understood the direction I wanted to take with the new website and came up with a wonderful design in no time. I've immediately observed a rise in sales after going live. All in all I can't recommend him enough!"

Christian, DDMF.eu

"Alex you are a great web designer / coder. You did the wordpress theme, fastspring customization, twitter integration, and even some custom stuff I needed for the FolderTrack website. You were quick and your prices are reasonable. I will definitely work with you again!"

Nick Coombs, FolderTrack
